PROFILE SUMMARY

Aspiring React Developer eager to kick-start my career through an internship opportunity. I have a strong foundation in React and front-end development, with a keen eye for creating intuitive and visually appealing user interfaces. Passionate about learning and staying updated with the latest technologies, I am committed to enhancing my problem-solving skills and contributing effectively to a dynamic team. I am eager to apply my knowledge, gain hands-on experience, and grow as a developer while helping build engaging web applications.

PROJECTS

Learning Management System (LMS), jawan pakistan

This platform is designed to streamline and enhance the management of educational institutions. It offers a comprehensive suite of tools for managing courses, students, teachers, and administrative tasks. The system is built with React, and Firebase, ensuring optimal performance, security, and scalability.

Hotel Management System, jawan pakistan

A powerful and user-friendly platform designed to streamline hotel operations, enhance customer experiences, and manage resources efficiently. This system is built with React, Firebase, and Material-UI, ensuring optimal performance, security, and scalability.

ExploreEase, jawan pakistan

This is the central hub where you can access and manage all key aspects of your application. Navigate through different sections such as Users, Products, Profile, and Contact using the sidebar menu. The dashboard provides a user-friendly interface for quick access to essential data, analytics, and management tools. Get real-time insights and efficiently handle tasks with just a few clicks.
